The abridged paperback edition of *The Sourcebook of Contemporary Architecture* presents sixty noteworthy case studies that showcase a complete and diverse range of structures worldwide--now in a more portable format. The case studies incorporate every type of architectural project possible--private, commercial and public--making this lushly illustrated, information-rich book a more widely accessible resource that architects and architectural students will turn to again and again.

Each case study includes a succinct description of the project at hand, listing its name, client, and location and presenting its unique objectives, challenges, and solutions. Every case study also features numerous full-color photographs and detailed renderings of site and floor plans. Finally, each case study provides a full listing of those involved in the project: the architectural firm and its participating architects; engineers; consultants; and contractors. The book features the work of world-renowned architects such as Gehry Partners, Ateliers Jean Nouvel, Santiago Calatrava, Daniele Claudio Taddei, Skidmore, Owings & Merrill, Philippe Starck, Tod Williams Billie Tsien & Associates, Daniel Claudio Taddei, Diller Scofidio, and others.
