The Revolution has only just begun...

UPDATED WITH PICTURES!

The revolution has only just begun.

James couldn't have imagined his life turning out like this. With the city in near ruins and a plot to blow up part of the city thwarted, James and the rest of the team hope this is the end of the resistance. Soon though, they find that it was only the beginning. Captain McCloud receives a threat that orders him to hand over the Mayor. Time is running out for the team to find a way out of this before the city is levelled.

Just when they start to get through it, James and the Captain find out that there's more in store for them.

They find themselves banished to the Nether and get assistance from an unlikely source.

Will they be able to stop the destruction in time? Will Obsidian rise again?

Secrets will be revealed and lives will be changed forever in the exciting conclusion of the Water World series.

Based on the popular game Minecraft, this book is chock full of action, adventure, and will take you on a roller coaster ride through intrigue and deception.

Comments From Other Readers

"My 11 year old is a huge fan. She has been reading the story since the first book and was excited to get her hands on this one too. It was well worth the wait! She finished the book in a few sittings and then read it again! Anything that combines what kids love and reading is a winner in my book" - Aubery (New Hampshire, US)

"I love books like this one. I read the first few books and they were awesome. I like how James is always a good guy. The ending was a little sad but cool at the same time. The only thing that I didn't like about this

book was that it was the end of the story! I don't really like reading but these books were the best. If you like Minecraft or if your kids like Minecraft you should get this book and read it." - Tony (10) (Arkansas, US)

"I have a hard time getting my son to read anything. It isn't that he has difficulty reading, he just gets bored with books. Finding something to hold his interest is a challenge. This fit the bill. A friend of his had the first two books and so I downloaded them for him. He was so quiet I thought he must have fallen asleep but he was completely engrossed in the book. I read the other ones and this one for myself and it was an excellent book. There's enough adventure to keep the readers interested but nothing that I would be hesitant to let him read. An excellent book!" - Piper (California, US)
