The Any Climate Survival Guidebook. Maintain Resilience in Rain, Snow or Desert: Secrets to Enjoying Hiking and Camping at any of the 4 seasons of the year Mr. Scott Rauvers

Read the first 55 pages free at: http://www.ez3dbiz.com/ez_camping_book.html Written by the Inventor of the LAMPSTOVE (www.LAMPSTOVE.com), this book makes it possible to comfortably camp in rain, desert or snow. It just takes the right information and planning. This unique book makes a great survival book for military, boy and girl scouts, outdoor rescue departments or any outdoor enthusiast. At the end of this book, you can view the images and illustrations needed for you to make your own LampStove for under \$10. From the author: Out of spending many years camped in remote regions and in all climate conditions, I have yet to find a good book that covers camping in extreme cold, hot or wet conditions with the information in one easy to read book. Sure there are some good survival books out there, but there is a big difference between survival, and camping and hiking for the sheer pleasure of it. This book gives you the much sought after tools and information to make camping in the snow, rain or desert an enjoyable and rewarding experience. With more and more campgrounds becoming crowded each year, by properly planning to camp in snow, rain or desert, you have increased privacy and comfort. After reading this book you will have increased self-confidence and solutions that you can apply while camping in just about any climate. This book can also make a handy emergency book to save your life if you happen to find yourself unexpectedly caught in a weather extreme. This is not just another how to camp or hike book, but instead gives you straight forward practical tips and techniques not found in other camping or hiking books. What many camping books on the market today neglect to tell their readers is how to camp in snow, rain or desert conditions and how to turn those conditions into an adventure filled with memorable experiences. Many of these books are hard core "survival" books making those extremes look life threatening. This book assumes the reader has a background of general camping experience and maybe even a small library of books related to camping and hiking, and is fairly well educated about hiking and safety in the wilderness. You will always get the most out of any camping experience by learning how to effectively adapt quickly to the environmental conditions you are exposed to. This book teaches that with the proper planning, you will learn that nature accommodates you in all weather environments. The keys are the right tools and having respect for nature. By having this book available in your library of adventure books, you will have at your fingertips one of the best resources, tips and information on surviving comfortably in the snow, rain or desert.
