How Artists See Set II: Work / Play / Families / America Colleen Carroll

With over 200,000 copies in print, the *How Artists See* series has introduced thousands of children to the timeless visions of some of the world's most celebrated artists. Now all twelve books in this remarkable series are available in boxed sets of four and six volumes, making it easy for parents, grandparents and teachers alike to build a meaningful art library designed especially for young minds. In *How Artists See* children learn about the world by looking at art and about art by looking at the world. Each volume presents sixteen diverse works of art devoted to a subject familiar to children through their own experience, organized into four subcategories for better comparison and contrast. Author Colleen Carroll engages readers with open-ended questions about the works, stimulating their thoughts, building their visual literacy and communication skills, and expanding their own artistic imaginations. For children curious to learn more about the artists featured, short biographies are provided at the end of each volume, along with suggestions for further reading and a list of museums where the artists' works can be seen. Handsomely packaged in sturdy slipcased sets, these classic books make ideal gifts for the home and essential resources for the classroom. As teaching tools they are especially versatile, being readily adaptable to grades K-6 and intersecting with disciplines as various as literature, history, science, and social studies through the many activities detailed in the series *Teachers' Guide* (available separately). Whether poring over Matisse's goldfish, Jacob Lawrence's Olympic athletes, or Hiroshige's moonlit cityscapes, readers of *How Artists See* will delight in discovering how the world can be transformed by great artists' creativity and their own.
