The most infectious and deadly killer since the plagues of the Middle Ages is sweeping across the world. 'The Heat' kills one in three, and the two-thirds who survive infection do so only in body, their minds gone. Dr. Susan Willowtips has been on the front lines for months, saving those she could. Now she needs a break, heading out to what is likely her last weekend getaway. But her encounter with new lover Dan Rebariron brings a strange and startling hope that will change Willow—and the world—forever.
