Maxwell Stearns, Todd Zywicki

Public Choice Concepts and Applications in Law (American Casebook Series) Maxwell Stearns, Todd Zywicki

"Public Choice Concepts and Applications in Law is a terrific introductory book for law students and a valuable analytic resource for professors, whether veterans or newcomers to the field. Stearns and Zywicki break down the subject into freestanding components, allowing the reader to think about courts, legislatures, voters, and agencies in ways unimagined by anyone unfamiliar with the basic tools of public choice. Cases, articles, and classic insights are brought together in a way that truly makes this a volume about the application of public choice tools to legal doctrines. There is nothing like it." --Saul Levmore, William B. Graham Professor of Law, University of Chicago
