History has already progressed through an agricultural revolution, an industrial revolution, and an information revolution. *The Neuro Revolution* foretells a fast approaching fourth epoch, one that will radically transform how we all work, live, and play.

Neurotechnology - brain imaging and other new tools for both understanding and influencing our brains - is accelerating the pace of change almost everywhere, from financial markets to law enforcement to politics to advertising and marketing, artistic expression, warfare, and even religious belief.

*The Neuro Revolution* introduces you to the brilliant people leading this worldwide transformation, taking you into their laboratories, boardrooms, and courtrooms for a unique, insider's glimpse into the startling future now appearing at our doorstep.

From foolproof lie detectors to sure-fire investment strategies to super-enhanced religious and aesthetic experiences, the insights and revelations within *The Neuro Revolution* will foster wonder, debate, and in some cases consternation. Above all, though, they need to be understood by those who will be most affected - all of us.
