The Second World War (3): The War At Sea (Essential Histories series Book 30) Dr Alastair Finlan

This volume provides a comprehensive guide to three major theatres of combat, the battles for the Atlantic, the war in the Mediterranean and the contest in the Indian Ocean.

The war at sea was a vital contest, which if lost would have irreversibly altered the balance of the military forces on land. The sea lanes were the logistical arteries of British and subsequent Allied armies fighting on the three continents of Africa, Asia and Europe. The Second World War was ultimately won by land forces but it could always have been lost at sea.

The Osprey Guide To... series is a reworking of the popular Essential Histories series, now available as non-illustrated eBooks at a fantastic low price.

The maps and text remain the same, giving a strong historical overview of some of the most important conflicts and theatres of war from the ancient world through to modern times.
