Method and Practice in Biological Anthropology: A Workbook and Laboratory Manual for Introductory Courses (2nd Edition) Samantha M. Hens

A valuable resource for you Biological Anthropology lab

Method and Practice in Biological Anthropology: A Workbook and Laboratory Manual for Introductory Courses complements a wide variety of introductory level laboratory courses in biological anthropology. It easily functions with a well-equipped laboratory, or it may be used as a primary source of photos and/or exercises, providing optimum flexibility to suit most laboratory environments. The book is organized into four sections, to reflect the organization of the typical introductory biological anthropology course: genetics and evolution, the human skeleton, non human primates, and our fossil ancestors.

MySearchLab is a part of the Hens program. Research and writing tools, including access to academic journals, help students explore biological anthropology in even greater depth. To provide students with flexibility, students can download the eText to a tablet using the free Pearson eText app.
