What makes the Book of Illumination stand out among other philosophical and or religious titles is its precision to math, definition, and it's deciphering of prophecy. There truly is no book like it, as it combines every major religion, history, prophecy, pop culture, as well as the occult, into one comprehensive record. It also, with the use of Kabbalah and sacred geometry, animates the lives of past mythological deities, and composites their lives with "stars" that are living today. The revelation given within the Book of Illumination is in direct alignment with New Age prophecy as well as the resurrection spoken of by Jesus. This resurrection is validated by Hinduism, the world's oldest religion, which is also the largest religion in the world that openly acknowledges and promotes reincarnation. Reincarnation, after reading the Book of Illumination, becomes fully realized. It is no longer a matter of theory, as again, the book proves with mathematics and sacred geometry, the existences of ancient celestial beings of folklore and mythology, who walk the earth today in the flesh.
