The Superman Philosophy Stephen Garvey

In 1957 while exploring the jungles of Guatemala, archaeologist Roger McTavish discovers a set of monuments apparently erected by Alvaro Manchez, an ancient Mayan leader and philosopher known as the Superman. McTavish translates the inscriptions carved on the monuments, and shortly after, disappears. Forty years later, a young couple connected to McTavish finds his translation, and they begin to reveal the Superman's ideas while the Guatemalan Army tries desperately to prevent them. The Superman Philosophy sets off a cloak-and-dagger train of international plotting and intrigue as American intelligence and an international secret society mount a campaign to suppress its publication. When the world's leading philosophers fail to refute the Philosophy, the story moves through a welter of terrorism, blackmail and betrayal towards its climax and the inevitable fate of the Superman Philosophy.
