Morag (Mauveine Series) (Volume 3) Roy Baldwin

McKenzie family records of the early nineteenth century have strangely gone missing, triggering concern, but scientist Victoria McKenzie and friend Abby are too preoccupied with a forthcoming break to Harvard University on a cruise ship. Onboard, circumstances in the Atlantic become terrifyingly scary and they find themselves facing the consequences of the ignored warning but in a manner that distorts their imagination far beyond anything possible. Forced to accept the challenge presented ... they must change the course of McKenzie history or face their own fate ... of never being born in the first place.
