**The Ethics of Caring: Honoring the Web of Life in Our Professional Healing Relationships** Kylea Taylor, Jack Kornfield

**The Ethics of Caring** is written for all caregivers, including psychotherapists, bodyworkers, medical practitioners, clergy, hypnotherapists, and acupuncturists, who want to become more conscious in their relationships with clients. It provides unique help to volunteer and professional caregivers who want to sort out confusing ethical dilemmas in seven categories including love, truth, insight, and oneness as well as the more well-known ethical issues of money, sex, and power. Ethical issues pertain to longings, feelings, and motivations which resonate at our very core. Powerful, shared experiences in the context of the therapeutic relationship can bring to the surface compelling fears, needs, and longings in both the client and the caregiver. It offers a new model of self-examination which deepens the therapeutic relationship and can prevent the harmful consequences of ethical misconduct.
