Participation and Learning: Perspectives on Education and the Environment, Health and Sustainability

Participation and Learning: Perspectives on Education and the Environment, Health and Sustainability

This ground-breaking collection brings together a range of perspectives on the philosophy, design and experience of participatory approaches within education and the environment, health and sustainability. Chapters address participatory work with children, youth and adults in both formal and non-formal settings. Authors combine reflections on experience, models and case studies of participatory education with commentary on key debates and issues.
