Analysis of Panels and Limited Dependent Variable Models (Studies in Monetary & Financial History)

Analysis of Panels and Limited Dependent Variable Models (Studies in Monetary & Financial History)

This important collection brings together leading econometricians to discuss recent advances in the areas of the econometrics of panel data, limited dependent variable models and limited dependent variable models with panel data. The contributors focus on the issues of simplifying complex real world phenomena into easily generalizable inferences from individual outcomes. As the contributions of G. S. Maddala in the fields of limited dependent variables and panel data have been particularly influential, it is a fitting tribute that this volume is dedicated to him.
