Office and SharePoint 2007 User's Guide: Integrating SharePoint with Excel, Outlook, Access and Word (Expert's Voice) Michael Antonovich

This book is a no-nonsense guide for Office users who have a SharePoint environment deployed. Written by the person responsible for large SharePoint deployment – his role is helping desktop users integrate and use SP features seamlessly – our author takes users through working with their familiar Office applications and leveraging SharePoint on the backend. This is different than using SharePoint; it's about putting Office to work and integrating it with SharePoint in such a way that even more benefits and synergies are realized. It's about using Office and SharePoint as a platform, and there is no other book on the market combining the two products.
